Roll size:	+/- 30m
Abrasion:	>300.000 cycles (MARTINDALE)
Flame retardancy*:	EN 1021 Part 1 & 2   DIN 4102 B2   MED   ECE R 1 18.02 Anx. 6,7 & 8  IMO 2010 FTP Part 8   UNI 9175 Classe I.IM   UNE 23.727-90 IR/M.2  NF P 92-503 / M2   EN 71-2:2006+ A1:2007   FMVSS 302
Cold Crack:	-29°C
UV-Resistance:	ISO 105 B02: ≥ 7/8 (BlueWool Scale)   ISO 104 B04: ≥ 4/5 (Grey Scale)
*This term and any corresponding data refer to the typical performance in the specific tests indicated and should not be construed to imply the behavior of this or any other material under actual fire conditions.	
FINISHES AND TREATMENTS PERMABLOK3®	
Virucidal Activity	ISO 18184:2019: Coated Fabrics treated with PERMABLOK3® are proven to reduce the presence of Coronavirus** by more than 90% within one hour of contact.  ISO 21702:2019: All the Coated fabrics treated with PERMABLOK3® are capable of reducing the Coronavirus** activity by 99,9% within 24 hours of exposure on the surface.
Bacteriostatic Properties:	ISO 22196:2011. Value of antibacterial*** activity R>2.  ** Testing was conducted with material exposed to Feline Coronavirus (same coronaviridae family, structures and mechanisms similar to SARS-Cov2)  ** Testing was conducted with material exposed to Staphylococcus aureus, Staphylococcus aureus (MRSA), Escherichia coli and Klebsiella pneumoniae.
WARRANTY	5 Years. Terms and conditions apply, Warranty conditions are displayed on our website.
CARE AND CLEANING	• The vinyl should be cleaned periodically in order to maintain its appearance and prevent build-up of dirt and contaminants.  • Any stain, spills, or soiling should be cleaned up promptly to prevent the possibility of permanent staining.  • Vinyl fabrics treated with PERMABLOK3® require a minimum of maintenance to retain their good looks. Use soft soapy solutions or special cleaning products for vinyl fabrics to remove stains on the surface of the material. Remove only with a damp white cloth.  • Lacquers, strong cleaners, detergents, xylene-based solutions, acetone, or MEK cause immediate damage and contribute to the deterioration of the material. The use of such cleaners is at the owner's risk.

Certain clothing and accessory dyes (such as those used on denim jeans) may migrate to lighter colors. This phenomenon is increased by humidity and temperature and is irreversible. SPRADLING International GmbH, SPRADLING UK Ltd, and EURO SPRADLING S.L.U will not assume responsibility for dye transfer caused by external contaminants and possible permanent staining caused by this phenomenon.

PERMABLOK3® and SILVERTEX® are registered trademarks of Spradling Holdings, Inc.® | Hi-Loft2™ is trademark of Spradling Holdings, Inc.®

	*This term and any corresponding data refer to the typical performance in the specific tests indicated and should not be construed to imply the behavior of this or any other material under actual fire conditions.
FINISHES AND TREATMENTS PERMABLOK3®	
Virucidal Activity	Except Valencia Pure White 107-9607 that has PERMABLOK3® Plus  ISO 18184:2019: Coated Fabrics treated with PERMABLOK3® are proven to reduce the presence of Coronavirus** by more than 90% within one hour of contact.  ISO 21702:2019: All the Coated fabrics treated with PERMABLOK3® are capable of reducing the Coronavirus** activity by 99,9% within 24 hours of exposure on the surface. ISO 22196:201 I. Value of antibacterial*** activity R>2.
Bacteriostatic Properties:	** Testing was conducted with material exposed to Feline Coronavirus (same coronaviridae family, structures and mechanisms similar to SARS-Cov2)  *** Testing was conducted with material exposed to Staphylococcus aureus, Staphylococcus aureus (MRSA), Escherichia coli and Klebsiella pneumoniae.
WARRANTY	5 Years. Terms and conditions apply, Warranty conditions are displayed on our website.
CARE AND CLEANING	• The vinyl should be cleaned periodically in order to maintain its appearance and prevent build-up of dirt and contaminants.  • Any stain, spills, or soiling should be cleaned up promptly to prevent the possibility of permanent staining.  • Vinyl fabrics treated with PERMABLOK3® require a minimum of maintenance to retain their good looks. Use soft soapy solutions or special cleaning products for vinyl fabrics to remove stains on the surface of the material. Remove only with a damp white cloth.  • Lacquers, strong cleaners, detergents, xylene-based solutions, acetone, or MEK cause immediate damage and contribute to the deterioration of the material. The use of such cleaners is at the owner's risk.

Certain clothing and accessory dyes (such as those used on denim jeans) may migrate to lighter colors. This phenomenon is increased by humidity and temperature and is irreversible. SPRADLING International GmbH, SPRADLING UK Ltd, and EURO SPRADLING S.L.U will not assume responsibility for dye transfer caused by external contaminants and possible permanent staining caused by this phenomenon.

PERMABLOK3® is a registered traderark of Sprading Holdings, Inc.® | Hi-Loft2™ and VALENCIA™ are trademarks of Spradling Holdings, Inc.®

- Product Characteristics
- Only valid for Loop colour codes.
  - It can be cleaned with neutral cleaning materials. Chemical solvents should not be used.
  - The detergent must not include oxide bleach and bleach.
  - There may be colour and tone differences between different lots, arising from the nature of the production and within conventionally accepted limits.
  - The product should not be exposed to direct sunlight.
  - The cutting should be done after the approval of the colour, tone and defect controls by the related parties. In this context, taking into account that, although exceptional, there may be tonal differences of products that arrive in pieces, they should be checked with the delivery of the product before cutting. Making upholstery without above mentioned examination may cause not getting the desired result.
  - While cutting or upholstery, the products should never be left folded, nor should they be left under-weight that may cause forming lines on them.
  - The tape should never be used on the product surface. This matter, which our company pays attention to, should not be overlooked after the product has been checked or if it is wrapped for a second time during use. When the leftover product should be rolled, please pay attention not to fold it tightly.
  - All kinds of leather and velvet should not come into direct contact with the sponge. Sponge should be covered with interlining or cotton lining.
  - Stains, such as oil, chocolate, chewed gum should never be cleaned with liquid (water, thinner, acetone and other solvents).
  - Dry cleaning methods are also recommended for such stains.
  - Vacuum cleaner can be used on daily and weekly basis.
  - Please get a confirmation about stocks.
  - The using place and purpose of the product should be conventionally accepted places and purposes.
  - No liability can be accepted for products that are not used properly.
  - The information stated above is of reliable common values. Please ask for special values of the contract.

PRODUCT SPECIFICATIONS

Application	Task Seating / Soft Seating
Composition	100% Polyester
Environmental	Certified to OEKO-TEX® Standard 100 Certified to Indoor Advantage™ "Gold" Non metallic dyestuffs
Width	140 cm minimum
Weight	320 g/m2 ±5%
Abrasion Resistance	Heavy duty / 10 year guarantee. Independently certified to ≥100,000 Martindale cycles
Flammability	EN 1021 - 1&2 (cigarette & match), BS 7176 Low Hazard EN 13501-1 Adhered Class B, s1, d0, EN 13501-1 Un-adhered Class C, s1, d0 BS 7176 Medium Hazard with EnviroFlam5
Light Fastness	5 (ISO 105 - B02)
Fastness to Rubbing	Wet: 4, Dry: 4 (ISO 105 - X12)
Bleach cleanable	ISO 105 E03 colour change 4 for dilution factor 1:4 chlorine solution.
Guarantee	10 Years

Cleaning  
Vacuum regularly. Wipe with a damp cloth using soap and water or use proprietary upholstery shampoo.  
For deeper cleaning use steam, bleach, alcohol or professionally dry clean. Can be washed at 60°C.

PRODUCT SPECIFICATIONS

Technical Informations	Unit	Value	Test Method
Composition	60% polyester, 40% cotton		
Weight	gr/m²	440 ±20	ISO 2286-2
Width	cm	140 ±2	
Resistance to Abrasion	cycles	>40.000	ISO 12947-1
Colour Fastness to Light	bw	4/5	ISO 105-B02
Colour Fastness to Rubbing	wet dry	>5 >5	ISO 105-X12
Roll Length	m	50 ±10	

**Liquid Stains**  
Blot the liquid stain gently with a high-absorbent material. Pat dry the area gently with a dry material to remove the remaining humidity (cotton cloth, paper towel, etc...), If the stain from the spill remains, remove the stain with a soapy cloth without diffusing the stain. After each rubbing motion, refresh the clean soapy cloth in order to prevent soiling.

**Solid Particles**  
Remove the excess soiling with ultimate care without diffusing. Remove the solid particle from the fabric surface with the help of a soft spatula. To remove dust, use a vacuum cleaner or a soft brush. The remaining stains should be removed by rubbing with a soapy cloth in circular motion.

**Ball-Point Pen and Similar Difficult Stains**  
Dampen a clean cotton cloth in a white soap solution. Rub the stain off gently. Clean the surface with the damp cloth and leave the fabric for drying.

**Alcohol Derives**  
Petroleum and alkali based solvents should not be used for cleaning. After all cleaning processes, the drying should be done with a low temperature blow dryer in large circular motion or the fabric should be left for natural drying. After drying, misoriented and damaged piles should be fixed with a soft brush.

Valid for all colors. Red colors may have less color fastness to rubbing.

- Product Characteristics
- Only valid for Canyon colour codes.
  - The cleaning process should start around the stain and held without dispersing the stain. It should be cleaned by gently wiping.
  - You can wipe off ballpoint pen stains with 20% ethanol. For other stains such as coffee, tea, milk, cosmetics, jam, syrup, fruit juice 40c lukewarm water, neutral cleaning agents and sponge can be used.
  - In oil and grease stains, the stain can be wiped of with the help of a brush after the chalk powder is used for covering the stain.
  - The shoe polish stain can be removed with perchloroethylene or 10% diluted ammonia.
  - All kinds of real and artificial leather should not be cleaned with bleach, detergent, coloured soap and similar materials and the product should not be exposed to direct sunlight. It should be kept away from sources of strong light (spot, etc.) and heat.
  - There may be colour and tone differences between different lots, arising from the nature of the production and within conventionally accepted limits.
  - All kinds of leather and velvet should not come into direct contact with the sponge. Sponge should be covered with interlining or cotton lining.
  - Please get a confirmation about stocks.

Colors may slightly vary due to photographic lighting sources or your monitor settings.

Flammability		pass	BS 5852-1:1979 EN 1021 1-2
Light Fastness		5	DIN EN ISO 105-B02:2002

- Product Characteristics
- Only valid for New King colour codes.
  - Our Atlantis product line has flame retardancy feature.
  - The cleaning process should start around the stain and held without dispersing the stain. It should be cleaned by gently wiping.
  - All kinds of real and artificial leather should not be cleaned with bleach, detergent, coloured soap and similar materials and the product should not be exposed to direct sunlight.
  - The product should be kept away from sources of strong light (spot, etc.) and heat.
  - The using place and purpose of the product should be conventionally accepted places and purposes. No liability can be accepted for products that are not used properly.
  - Leather products should not be kept in plastic packaging and humid places for a long time. Solid objects such as toys and jewellery may cause unintended starches on the material.
  - Leather-covered products should be placed at least 50 cm away from heat sources (stoves, radiators, fireplaces, etc.). Otherwise, the leather may lose moisture which may cause undesired cracks.
  - Impacts, scratches, etc. that may occur due to transportation and external. should be considered out of warranty.
  - Direct contact of pets with leather goods should be prevented.
  - Direct contact of the products with high surface temperature (iron, etc.) with the leather may cause a damage.
  - Protect the leather from harsh blows.
  - Since ink on newspapers or magazines may get on the product and leave a permanent stain, do not leave it on the product. Especially if you sit with new jeans that give dark coloured paint on light coloured leather as an example, there may be stains. Note that this stain is not caused by the leather itself, but by the trousers that dye and colour.
  - Weekly remove the dust or dirt on the surface of the product with a damp white and soft cotton cloth dampened with soapy water, rinse and dry when necessary.
  - When coffee, tea, etc. spilled: Use a highly absorbent white cloth or paper. Do not delete it immediately! Make sure the stain is absorbed by the cloth or paper.
  - Wipe off the remaining moisture with a soft cloth in circular motions.
  - Alcohol and cologne are not recommended for difficult stains such as ink, ballpoint pen, lipstick. Wipe with warm soapy water with gentle circular movements.
  - There may be colour and tone differences between different lots, arising from the nature of the production and within conventionally accepted limits.
  - Please get a confirmation about stocks.

Colors may slightly vary due to photographic lighting sources or your monitor settings.

Light Fastness		dry wet	5 5	ISO 105-X12

- Product Characteristics
- Only valid for New Sabine colour codes.
  - It can be cleaned with neutral cleaning materials. Chemical solvents should not be used.
  - The detergent must not include oxide bleach and bleach.
  - There may be colour and tone differences between different lots, arising from the nature of the production and within conventionally accepted limits.
  - The product should not be exposed to direct sunlight.
  - The cutting should be done after the approval of the colour, tone and defect controls by the related parties. In this context, taking into account that, although exceptional, there may be tonal differences of products that arrive in pieces, they should be checked with the delivery of the product before cutting. Making upholstery without above mentioned examination may cause not getting the desired result.
  - While cutting or upholstery, the products should never be left folded, nor should they be left under-weight that may cause forming lines on them.
  - The tape should never be used on the product surface. This matter, which our company pays attention to, should not be overlooked after the product has been checked or if it is wrapped for a second time during use. When the leftover product should be rolled, please pay attention not to fold it tightly.
  - All kinds of leather and velvet should not come into direct contact with the sponge. Sponge should be covered with interlining or cotton lining.
  - Stains, such as oil, chocolate, chewed gum should never be cleaned with liquid (water, thinner, acetone and other solvents).
  - Dry cleaning methods are also recommended for such stains.
  - Vacuum cleaner can be used on daily and weekly basis.
  - The dark colours of this product, which is produced as ball painting, should be cleaned with a damp cloth after laying and afterwards, the paint crumbs that could remain between the textures. This process can be done several times if necessary.
  - The product has a teflon feature.
  - Please get a confirmation about stocks.

PRODUCT SPECIFICATIONS

Yarn	100% solution dyed acrylic
Width	137 cm
Roll length	30 m
Weight	240 gr/m²
Martindal	15000 cycles
Finishing	Water repellent, anti-stain and anti-mould treatment
Oil-repellency	5 off 8
Spray Test	5 off 5
UV Colour fastness	7 off 8
Colour fastness to weather	7 off 8
Colour fastness after washing at 40°C	5 off 5
Flame resistance	CAL TB 117 - 2013 Section 1
Warranty	5 years
Tolerance	± 5%
Care	See the ISO symbols
Biocides	It contains biocidal agent with approved active substances: Octyl Isothiazolinone

# Bogota

REAL LEATHER

Real leather that has a pigmented and protective top coat with a soft handle and a silky matt finish.

**Product Characteristics**

- Avoid placing leather near direct sunlight.
- Keep the leather away from heat sources.
- Dust regularly with a soft and dry cloth.
- If a spill should occur, blot immediately with a clean absorbent cloth or sponge.
- For deeper cleansing use a lightly damp cloth with natural soap. Do not saturate.
- Do not rub. Use a circular motion and clean the entire surface.
- Using a soft and dry cloth, dry immediately after the treatment.
- Never use household cleaning agents, furniture polishes, ammonia, bleach, varnish, oils or similar.
- If you wish to use specifically made creams or lotions for leather upkeep and care feel please consult specialized companies and leather professionals who supply such sets. If you need recommendations on who to consult, we are happy to indicate.

All our leathers comply with the strict regulations and EU Directives covering the use and presence of PCP, CFC, Chromo VI, Dimethylfumarate (DMF) and Azo dyestuffs during the tanning process. Due to the natural properties of leather colour variations between one dye lot and another may occur.

This technical specification sheet replaces any copies in your possession. The values indicated in this sheet refer to the leather at the time of supply. Once the leather has been processed, cut, marked we can no longer guarantee the same values.

Considering the natural aspect of this product and unpredictable related factors, we reserve the right to change the indicated specifications at any time without prior notice.

**Important Note**  
Please note that leather is natural material that becomes soft and stretches over time.
